

CASE STUDY

Project: CSIRO North Ryde
Joint Research Laboratories

PROJECT: CSIRO North Ryde
Joint Research Laboratories

SPECIFIER: E Shelmerdine & Partners

BUILDER: John Holland

CONTRACTOR: Avant Garde Insulations

ARCHITECT: Cox Richardson

PRODUCT: Roof: Insuloft foiled building blanket
Partitions & Ceilings: Tontine Sound Batts
(TSB) 4 and 5
External duct lining: Acoustisorb 1 HWF
25mm
Internal duct lining: Acoustisorb 2 HWP 25
& 50mm
Silencers: Acoustisorb 2 - 50mm

Situation:

Building of CSIRO North Ryde Joint Research Laboratories. CSIRO scientists were involved in planning and specifying products. Specific requirements included the need for a safe material for both installers and users of the building as well as ease of use.

Solution:

Tontine Insulation was able to meet the specific requirements of the clients by providing safe, easy to install, polyester thermal and acoustic insulation. Tontine Insulation products did not require any special protective gear to install and do not contain formaldehyde or any Volatile Organic Compounds, thus contributing to the safety of workers.

FOR FURTHER INFORMATION CALL 1300 467 852 OR EMAIL customercare@tontineinsulation.com.au

In most cases product testing has been conducted in laboratory situation under controlled conditions. Site-measured performance may vary due to installation quality and site conditions. Thermal testing has been carried out in accordance with AS/NZS 4859.1, and acoustic testing in accordance with ISO-354-2006 in certified reverberation rooms. As these products are subject to constant research and development, we reserve the right to update the contents without notice. Recommendations regarding the use of products are to be taken as a guide only, and the purchaser should independently determine the suitability of a product for the intended applications.
